

Recommended* Parental Control Apps/Software

Screen Time

Android, iOS, Amazon

Set time limits for your children's devices from your phone or any browser. Set bedtime and school time restrictions for specific apps. Use your phone or tablet to pause your child's device or give Bonus time. Create fun check lists of things you would like children to do or learn and motivate them with rewards. Plus more.

Basic Version

free

Premium subscription

£2.99 per month

<https://screentimelabs.com/>

Kidslox

Android, iOS, Amazon

Block inappropriate apps from the device when your child is using it. Set regular device schedules to automatically block or unblock your child's device at the required time. Lock your child's device remotely with the flick of a switch. See how your child is using their device with Kidslox session statistics. Set up custom restriction profiles so that allow your child to access only the apps and phone functions you want.

free 14 day trial

\$2.99 per month or \$29.99 per year

Creating a family media plan

www.healthychildren.org provides families the opportunity to create their own media plan to help parents and children decide on sensible limits for online (and offline) usage.

Separate plans can be created for each individual child in the family and are based on the age ranges 18-24 months, 2-5 years, 6-12 years, 13-18 years. The site is from the American Academy of Paediatrics, (so far there doesn't seem to be an equivalent UK based service).

American Academy of Pediatrics
DEDICATED TO THE HEALTH OF ALL CHILDREN™

Media should work for you & work within your family values & parenting style. When media is used thoughtfully & appropriately, media can enhance daily life. But when used inappropriately or without thought, media can displace many important activities such as face-to-face interaction, family-time, outdoor-play, exercise, unplugged downtime & sleep.

By creating a Personalized Family Media Use Plan, you can be aware of when you are using media to achieve your purpose. This requires parents & users to think about what they want those purposes to be. The tool below will help you to think about media & create goals & rules that are in line with your family's values.

To make YOUR family's Media Use Plan, start by entering your family's information. This information will remain private and confidential.

Screen Free Zones

Having areas of your home remain screen-free is important. Select from the list below & add them to your Family Media Plan to make sure your children understand where screens are not allowed. Add any other screen free areas that are specific to your family.

Mobile devices & TVs are not allowed in the following screen-free zones in our home:

- ☒ Kitchen or dining room table
- ☒ Bedroom

Screen Free Times

As part of the daily routine, make devices like TVs, phones, computers, games or other electronics off limits at specific times. Dinnertime & before bedtime are important ones, but more extended breaks from technology each day may also be needed, especially for families with very young children.

We will not use mobile devices or other screens during the following times:

- ☒ One hour before bed
- ☒ Meal times
- ☒ While walking across the street
- ☒ While in the car, except for long trips
